Why are you participating in Odyssey 2000®?

Three times in my life, doctors have told me that I'd never be able to continue at the level of competitive sports I love. In 1995, I bicycled 3,800 miles across the U.S.A. in 51 days. My friends joked, "Now that you've ridden across the country, what are you going to do to top it...ride around the world?" As a matter of fact, yes!

My father died when he was 42 and I recently lost a good friend about the same age. In light of my physical setbacks and those I've known with too-short lives, I don't want to postpone my dreams for a day that might never arrive.

When I tell people about Odyssey 2000, I'm amazed by those that lament, "Oh, I could never do something like that." I ask why not? I tell them that I'm not able to do this because I'm some super-human athlete or independently wealthy. I'm doing it simply because I believe I can.

What are you most looking forward to?

I've always thought it sad there's so much to experience in this wonderful and diverse world and that few of us get that opportunity. I'm not letting my chance pass by. In 2000, I'll turn 40 and have no intention of being one who wonders "what have I done with my life?" I'll be doing it.

I'm so anxious to meet the rest of the riders and staff. What a courageous, adventurous, and vibrant group of individuals to call my new friends! These people, and those I meet along the way, will surely have a profound affect on the rest of my life.

How do you think Odyssey 2000® will affect/change you?

As I mentioned, I'll turn 40 during Odyssey 2000 and will have the best body of my life...yes! Seriously, my two-month ride across the U.S.A. already changed me in so many wonderful ways, I know Odyssey 2000 will take me to a whole other level. I just don't let life's little dramas drain my spirit. Few things are really worth getting worked up about. I truly understand that we choose what the quality our lives will be. Sometimes I feel like a gerbil on a wheel and it's time to jump off. It's so easy to become entrenched in our daily routines and never stop to consider alternative paths. I can't wait to see what life holds for me beyond 2000!

Something Ed, my husband, and I both enjoy (meeting people, travel, and bicycling) that we can do before we are too old. Tim Kneeland's timing of this bike tour was perfect.

Probably look at everything in a different light.
